REPORT ON EVALUATION OF SKYLAB IMAGERY

Period ending 29.1.75

1. Title: A study of the usefulness of Skylab EREP data for earth resources studies in Australia.
2. NASA HQ proposal indent no. : S R 557
3. Accomplishments: As mentioned in the previous progress report (8.8.74) work commitments of the personnel involved were very heavy on other projects, including membership on an ERTS team visiting NASA and other institutions in Canada and the U.S., during the months September to December 1974.  
  
No significant progress has been made on the investigation.
4. Results: No new results are available for this report.
5. Problems: The most serious problem has been the inability to devote any productive effort to the investigation.
6. Published articles: Nil.
7. Recommendations : Nil.
